

KP14036A–Dump truck lifting pump

KP1403A lifting pump (fight's pump) mainly to use in 4–10 ton Japanese–style dump truck's hydraulic systems, takes the tipping hopper cylinder's hydraulic pressure power supply, this pump uses the high strength cast iron material, causes its bearing capacity to be greatly strengthened, the internal structure has used the bimetal side bar, the control valve and the check valve and the pump body union body and so on many vanguard technologies, this pump has the working pressure to be high, the service life is long, a pump valve body simplifies characteristics and so on hydraulic system, is the dump truck hydraulic system's ideal power supply.

Theory displacement: 136 cc/rev	Fat liquor temperature range: –20c--80c
Rated pressure: 80 kgf/cm ²	Hydraulic fluid viscosity scope: 10--75c.s.t
Controls valve lever's steel wire action: 15 kg	Fat liquor filter fineness: $\leq 25\mu\text{m}$
Oil pump lumpy mass: 37 kg	Blotting altitude: $\leq 500\text{mm}$

REXPOWER GEAR PUMP
